

General information - diets

We are pleased that guests choose to visit the restaurant of the Špik Hotel.

In the pleasant ambiance of our restaurant, one can enjoy a rich buffet breakfast and dinner with a wide selection of dishes.

However, we must inform the guests that our kitchen is not specialized in the preparation of vegetarian, vegan, and other special diets.

SPECIAL DIETS

Unfortunately, the hotel cannot guarantee a strict diet without traces of allergens. The hotel kitchen, which provides all meals for the hotel guests, is a single room and contamination is difficult to avoid. Although care may be taken, dishes may contain traces of flour, nuts, etc., which are airborne. Lactose- or gluten-free dietary dishes are also part of the hotel's regular offer, but may still contain traces. We sincerely hope that you will find dishes that suit your taste in the regular menu. However, guests with strong reactions to allergens are advised to stay on a bed and breakfast basis.

We will nonetheless do our best to fulfill your wishes. If you inform us in advance, it will be easier to accommodate your requests.

Thank you.
